SOLAIS[®] introduces

DROPLIT

NDR • SDR • MDR • GDR

The Droplit™ family of surface and track mount pendants meets the scrutiny of designers by upholding a calm, inviting elegance through its minimalist aesthetic, ensuring itself as a perfect solution for any environment. Similar to its Lucie™ trackhead counterparts, this family of fixtures bears a robust and modular design, allowing for easy and accessible installation.

Furthermore, this collection of luminaires features the new *Solais Signature Series™* of finishes, making it one of Solais' most versatile products to date — in both design and materials. The Droplit is part of Solais' latest wave of architectural innovations, integrating form and function with state-of-the-art light control and performance.

Ratings + Certifications

- Meets California Title 24 + JA8 requirements
- IP20 and IK08 rated
- UL listed for dry and damp locations (E485648)
- Contains no lead or mercury

INTEGRATED DRIVER

Solais' proprietary driver technology fits directly into the canopy to deliver smooth, flicker-free dimming (per IEEE 1789-2015) to 1% via phase-cut or 0-10V controls.

ARCHITECTURE GRADE INSTALLATION

The fixture mounts to standard 4" junction box. Discreet and tall canopy options are available dependent on model, driver, and lumen package selection.

DURABLE CONSTRUCTION

Built with fortitude, the Droplit is made of die-cast aluminum alloy for optimal thermal performance. Being IC, IP20 and IK08 rated — meeting California's Title 24 + JA8 standards — this luminaire ensures a strong resistance to wear inside and out.

INSTALLATION VERSATILITY

Features an easy-to-use twist-on construction that includes accommodation for up to two accessories, plus a snoot. Snoots are available in either matching finishes or acrylic construction for diffusion and an element of uplight. Custom snoot colors and lengths are available.

INTERCHANGEABLE PLUG-AND-PLAY MODULES

Utilizing Solais' Lucie technology, 2", 2.5", 3", and 4" diameter modules plug into proprietary sockets quickly and easily, allowing optimal flexibility to streamline maintenance. Solais' custom TIR optic platform ensures excellent light control, with the latest in optical materials, and beam control that is smooth, clean and precise; *harmonizing your point source™*.

Illumination with a

refined ambiance

Breathtaking Aesthetics

The Lucie™ family offers a suite of luxurious finishes to achieve the perfect look for any application. Our collection of standard and recently released Solais Signature Series™ options include a variety of matte paints, brushed metals, and specular chrome-mirror finishes.

Solais® is the preeminent market-driven manufacturer of architectural-grade lighting solutions in North America. Our primary focus lies in the development of products that seamlessly merge form and functionality. Technologically oriented and nimble, Solais innovates at every opportunity to replace outdated ideas in lighting, never compromising on aesthetics or performance.

Solais has become a turnkey provider to leading brands in the commercial, retail, residential, hospitality, supermarket, museum, and utilities markets throughout the world. Motivated by an unwavering commitment to cutting-edge innovation, we strive to transform our clients' environments with LED lighting solutions that *meet at the intersection of engineering and design™*.
